

Please do not allow cell phones on planes. I fly often and am concerned about this for 2 reasons- 1) safety and 2) comfort. Why should I pay to sit 2 inches from someone who is have a phone conversation that I can't avoid. It is bad enough now when people are talking before take-off. PLEASE don't allow this. I and I know many others who fly often are very against this.

Thank you-

P. Macy
